SELECTED DESIGN AND WEB WORK

Chrysalis | Web designer

Pro bono client website · 2026

- Designed and built a venue website for discovering events, browsing photos, and making inquiries; refined the design with client feedback.
- Created separate show-proposal and artist-pool forms so visitors can submit the right information for each type of inquiry.

TaylorHTML | Web designer

Personal portfolio · 2026

- Designed and launched a responsive portfolio with interactive case studies; refined navigation, typography, and screen layouts across mobile and desktop.
- Published with GitHub Pages and a custom domain; manage updates through Git and GitHub.

TrailBuddy | Solo UX/UI designer

Springboard concept project · May-August 2025

- Researched and prototyped a solo-hiking app in Figma. Two rounds of usability testing informed trail discovery, end-hike confirmation, and the review experience.

Okay Velo | Solo UX/UI designer

Springboard desktop e-commerce project · October-November 2025

- Designed bike comparison and guest checkout; iterated through two usability rounds. All five second-round participants completed guest checkout without assistance.

ADDITIONAL EXPERIENCE

Autonomous Vehicle Operator

JSAN Consulting supporting Waymo · June 2026-Present

- Monitor autonomous vehicle behavior; document anomalies, interventions, and operating conditions to support investigation and follow-up.

EDUCATION

Springboard · UI/UX Design Career Track Certificate · December 2025

British Columbia Institute of Technology
Front-End Web Development Certificate · July 2024
