Taylor Wyatt

UX/UI and Web Designer

TaylorHTML@aol.com · taylorhtml.dev
github.com/TaylorHTML · linkedin.com/in/taylorhtml

UX/UI designer with front-end training. I translate research and usability findings into clear interfaces, responsive websites, and thoughtful interactions.

SELECTED UX/UI PROJECTS

TrailBuddy | Solo UX/UI designer

Springboard concept project · May-August 2025

- Led research, user flows, wireframes, and a Figma prototype for solo-hike planning and on-trail support.
- Used two rounds of usability testing to refine trail discovery, end-hike confirmation, and the review experience.

Okay Velo | Solo UX/UI designer

Springboard desktop e-commerce project · October-November 2025

- Audited Trek, Amazon, and Target; designed side-by-side bike comparison and a guest checkout flow.
- Refined comparison and payment cues through two test rounds; all five second-round participants completed guest checkout without assistance.

GalleryPal | Solo UX/UI designer

Springboard five-day design sprint · September 2025

- Prototyped a museum guide linking artwork scans to text, audio, and saved insights.
- All three testers completed the core flow; two requested Browse mode as the next priority.

ADDITIONAL EXPERIENCE

Autonomous Vehicle Operator

JSAN Consulting supporting Waymo · June 2026-Present

- Monitor autonomous vehicle behavior; document anomalies, interventions, and operating conditions to support investigation and follow-up.

EDUCATION

Springboard · UI/UX Design Career Track Certificate · December 2025

British Columbia Institute of Technology
Front-End Web Development Certificate · July 2024

SKILLS
